WHAT WE FUND

Health and Wellness Grants (Typically ranging from \$5,000 to \$35,000)

These funds are to advance programs, projects, and partnerships that improve the access to quality healthcare and the health of the poor and powerless. The Foundation has defined health to include physical, mental, spiritual, dental, and/or visual health. Typically, only programs that can demonstrate that greater than 51% of their clients are very low income with health issues are considered for these grants.

LIMITED FUNDS ARE ALSO AVAILABLE FOR:

Frederick J. Pfeiffer Fund in Honor of Charles F. and Henrietta Eckart Pfeiffer These funds are restricted to healthcare programs for capital improvements or acquiring medical & surgical equipment. The majority of these grants are directed to help local clinics acquire medical equipment.

Burn Care and Prevention These funds are restricted to burn prevention education and to educate health care professionals and first responders in emergency situations to treat severe burns with best care practices.

Staff will assist with matching a request to the appropriate donor restricted fund. We encourage grant seekers to discuss proposal ideas with Foundation staff by telephone, personal appointment, or email prior to submitting a proposal. This will help confirm basic funding compatibility.
