The Foundation has defined health to include physical, mental, spiritual, dental, and/or visual health. Typically, only programs that can demonstrate that greater than 51% of their clients are very low income with health issues are considered for these grants.

Frederick J. Pfeiffer Fund in Honor of Charles F. and Henrietta Eckart Pfeiffer (Typically ranging from \$500 to \$10,000) These funds are restricted to healthcare programs for capital improvements or acquiring medical & surgical equipment. Over the years, these funds have primarily been directed to help local clinics acquire medical equipment.
